ULTIMATE LEAD GENERATION BLUEPRINT

Step-by-Step Strategy

Targeting The RIGHT Market

- 1. Don't start out focused on trying to sell everyone. You should know exactly who your target market is and more importantly that they can afford your product or service.
- 2. You need to be able to filter out the people that would probably never buy from you anyway, saving you time and frustration.
- 3. You should know exactly who your perfect customers is and what their wants and needs are, including their pain points like their struggles, issues, limiting beliefs, stress factors, etc.
- 4. Once you've identified your target market the next step is to set up your new social media sales funnel so you can generate leads and sales on autopilot.

THE RESULTS:

- You'll be building a list of BUYERS.
- You reduce or eliminate your ad costs
- You create buying momentum for your core or main offer.
- You generate much higher conversion of leads to customers.

Below is an example of what this kind of Social Media Lead Magnet funnel looks like:

Your NEW Social Media Automated Selling Machine

- 1. The new way of creating a successful sales funnel that converts involves several key components. The key difference is you are going to use your social media profile as the foundation of your sales funnel. In this case, specifically your Facebook profile.
- 2. You're going to generate traffic, by simply doing the things you normally do on social media, by your engagement, liking and commenting on the platform.
- 3. From this interaction, people will visit your profile page. When they do, you want to optimize your profile to send them to your funnel and start converting all of these people into actual leads.
- 4. On your profile page you're going to use a valuable freebie or lead magnet to get them to take action and move to the next step in your funnel WITHOUT requiring them to opt in, yet.
- 5. Instead you are going to direct them to a pop-up CTA (call to action) so that when they click on the button it will lead them to a thank you/bridge page.
- 6. On this thank you/bridge page, you want to let them know when & how they can expect to receive the lead magnet. But more importantly you are going to give them details on how to connect with you by using a chatbot like messenger to deliver the lead magnet.
- 7. Once they connect with you through messenger/chatbot it will start an automated message sequence that will contain another call to action that will require them to opt in to your list and become a new subscriber to receive the lead magnet delivered by you autoresponder.
- 8. At this point is where you separate yourself from all the other marketers by using the "SECRET SCRIPT" to start a text message conversation with these prospects while they wait to receive the lead magnet.

Now for the solution that's going to make your life 100x's easier by getting your leads to say, "YES" 100% of the time to your offers...

ULTIMATE LEAD GENERATION BLUEPRINT

Step-by-Step Strategy

How It Works

- **1.** You need to understand the RIGHT formula for converting leads into customers and getting a YES to your offers 99% of the time:
Right Positioning + Right Offer + Right Pricing = YES 99%
- **2.** You must also understand that to be successful selling ANYTHING online you need people to KNOW, LIKE and TRUST you. These are the TWO VITAL KEYS to building a profitable online business in ANY niche/market.

Example of how the Social Media Lead Magnet funnel works:

#1)

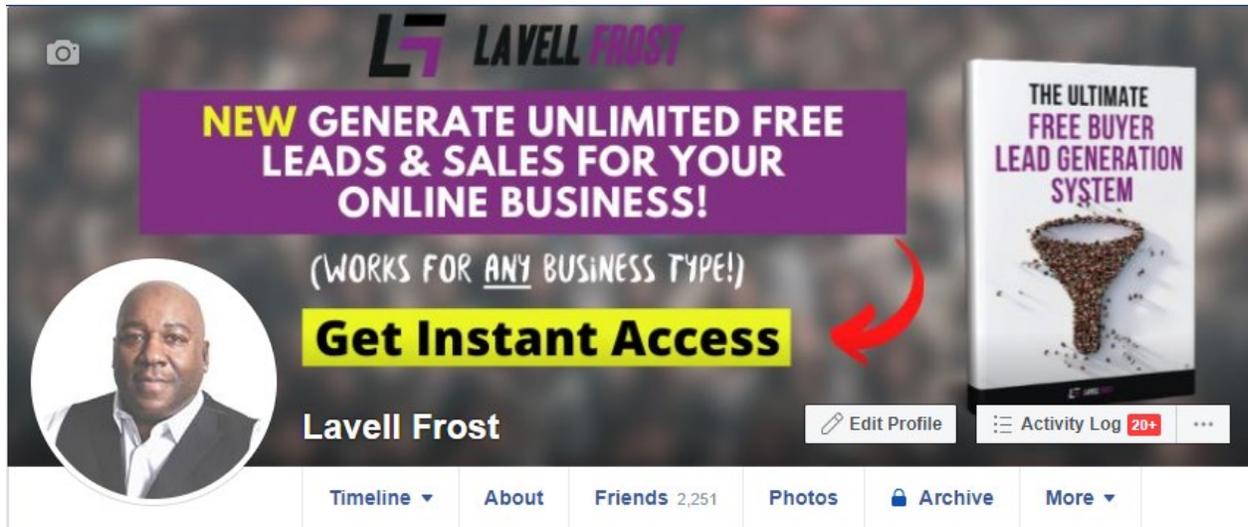

STEP ONE: You start generating traffic by simply doing what you normally do on social media, by your engagement and liking and commenting and all of that stuff we all do on social media. This traffic will visit your profile page.

STEP FOUR: The next step will lead them to a Thank you/Bridge page that will have a button for them to click to be subscribed to your list and receive the Lead Magnet through your autoresponder email sequence and also forwarded to a VSL/Webinar, if you choose.

More importantly this is where you separate yourself from all the other marketers and competition by using the “SECRET SCRIPT” to start a text message conversation with them while they wait to receive the lead magnet.

The SECRET Script: Your Unfair Advantage

- 1. When it comes to selling anything online there is a formula you must know and use to get people to want to buy from you and we call it the KLT formula, which stands for KNOW, LIKE and TRUST. It's a fact that people will buy from you, if they know you, like you and trust you. The SECRET SCRIPT allows this to happen.
- 2. The Secret Script allows you to position yourself as an expert. It's a proven fact people will do business with an expert over just anybody 100% of the time.
- 3. The Secret Script will allow you to filter out people who you want to do business with and those you don't. Most importantly instead of having to sell to these prospects, they will see you as an expert who really cares about what *they* want, making them want to do business with you over someone else.
- 4. The Secret Script combined with this funnel will give you a powerful marketing system that will get more people to say YES to your offers 99% of the time..
- 5. The goal of this conversation should be to get on a call with your prospects and close them. I'll explain how you can access the SECRET SCRIPT a little later.

Final Step: The Money-Making Email Series

- 1. You'll need to pre-design a 3-5 message email and text series to promote your main core product.
- 2. If your subscribers don't buy during this process then you can continue to follow-up with them through an email/text broadcast series. This is VERY important so you can continue to build a relationship with them until they do buy from you.

THE RESULT:

Without a set of automated emails in place to follow up with your leads...you will FAIL! The truth is all the top income earners online find success in a BIG way doing exactly THIS! They earn BIG money from the emails they send to their lists.

The good news is everything can be set-up on complete autopilot, allowing you to send emails every day while bringing in new customers into your business daily. Enabling you to make more money while working less!

Conclusion: Hard Way VS Easy (Smart) Way

The reason the smart marketers let us help them is because it will save you time and money. Let me explain...

If you where to go and try and build a funnel like this on your own, you would probably need to hire out most of the work, unless you have the skills needed. The first thing you need to know is what type of funnel you need for your business, there are 6 different types.

The average costs to build a high converting funnel like this can run anywhere from **\$2K-\$5K**:

Get any of this wrong or hire the wrong person and it can spell disaster for you, it's why about 95% of marketers who try and attempt this will struggle and fail over the years.
